THE REVIVAL NOW ON

A Splendid Audience Greeted
Evangelist Schiverea.

THE OUTLOOK IS ENCOURAGING

Personal Appearance and Manner of the
Man Who, Under Providence, is Ex-
pected to Accomplish Great Good in the
City of East Liverpool.

At 7:30 last night, at the rink, the
meetings opened with the rendition
of No. 120, "The Lily of the Valley,"
in the presence of a grand audience,
Reverend Whitehead acting as the
leader of the choir. Several selections
of popular gospel songs followed, the
audience joining in with a zest, under
the encouraging persuasion of the
earnest pastor of the Methodist
Protestant church, who would not be
refused in his plea that all should
"Scatter Seeds of Sunshine" by sing-
ing heartily, and responding with
pleasant smiles to the invitation to
work in the Master's vineyard.

Messrs. Moore and Shaw were then
called upon and responded in short
prayers, asking for God's blessing upon
the evangelistic meetings.

At 10 minutes of 8, contrary to ex-
pectations, it was found necessary to
open up the entrance to the galleries,
such was the rush to obtain admis-
sion to the services.

At five minutes of eight the evan-
gelist stepped upon the platform. He
is: Five feet eight inches in
height; weight, about 200 pounds.
Earnest, quiet manner, as if realizing
the awful responsibility God has
placed upon him. Good forehead and
a face which wins from the start with
the people. Mark the prophecy—in
the hands of our God, Evangelist
Schiverea will accomplish great good
for the city of East Liverpool and her
people. Schiverea resembles McKin-
ley.

Short scripture reading by Rev. J.
C. Taggart, accompanied by earnest
exhortation for absolutely good order
and attention to God's work in this
city, and then again the rink rang to
the echo with gospel songs. Rev.
John Lloyd Lee delivered an earnest,
eloquent prayer, asking for the Mas-
ter's blessing upon the people and upon
the evangelist, as he commenced his
work in the vineyard of the Lord.

"The Bird With the Broken Pin-
ion," was rendered by a quartet, to the
organ accompaniment of Miss Hatlie
Watkins, and then came a selection
which made the rink resound, every-
body seeming to know the piece,
"Jesus Saves." Then Schiverea took
charge, and the wonderful magnetism
of the man came at once to the sur-
face, the people responding to his
pleasing and kindly coaxing that they
should sing for Jesus, men and women,
young and old being pointed out for
not taking part, no one taking offense,
for the man's heart was speaking out
of his eyes, and the onlookers caught
the inspiration of his deep earnest-
ness. Mark these words: "The rink
will not accommodate the people be-
fore these meetings end."

The speaker took as his subject for
the evening, "Wilt thou not, oh God,
revive us again," from the eighth fifth
psalm, and then branched out in the
argument that revivals are an actual,
living necessity. The mother prays
for the revival of her child's health.
Politicians find the need of an earnest
revival in political campaigns. The
farmer needs the grand revival of the
spring time. The business man must
have revivals of business. Yes, re-
vivals are an absolute necessity. And
why not a revival of the religion of
the Lord and Savior, Jesus Christ?
Why not showers of blessings, which
our God stands ready to give to hu-
manity? Revivals are necessary in
order to stop the awful progress of sin
and depravity. Law cannot stop the
commission of evil. Politicians cannot
stay its blighting influence. There is
but one medium—the hand of God;
the religion of Jesus.

I deeply sympathize with you over
the disgrace which has come to your
city and to your beautiful valley in the
barring of the Bible from the public
schools. Miss Jessop was told that
she must cease reading the Bible to
the scholars under her charge, or ac-
cept the alternative of losing her
place—her means of obtaining a living.
She compromised the matter with her
conscience, and for the past week she
has been suffering intense agony in
consequence. And now, thank
God, she has won the victory, and has
determined to read the Bible to her
pupils, even if she loses her position.
I pray God that the time may soon
come when these school directors of
East Liverpool may lose their places.
Who placed these directors in power?
Did not the people—the voters? God
bless the voters of East Liverpool—
those who will vote against infidelity
and agnosticism. God save our blessed

land, or we will soon be like unto mis-
erable, unfortunate France. Take
the Bible from your land, from your
public schools, and you have not the
shadow of a foundation for good gov-
ernment to rest upon; nothing upon
which to establish good morals, clean
life, social purity, happiness in the
home circle. Oh, how you need a
revival in this city at the present
time. In the first five thousand years
after Adam there were no revivals of
note; and then came revival influ-
ences, and the world grew better.
Look at grand old Luther; he could
not rest easy under the burden of sin,
iniquity and false teachings which
surrounded him on every hand, and
he pleaded mightily with God for a
revival, and God answered his prayer
with mighty power.

See brave and grand John Knox
sorrowing over sin in his beloved Scot-
land, until he cried out in the agony
of prayer, "I want Scotland, or I'll
die." The loving, prayer-answering
God gave John Knox, the eminent
Presbyterian divine, the desire of his
heart, and Scotland was saved to the
Master, under the influence of a won-
derful revival of religion.

Look at the Wesley brothers in
England, when that great nation was
groaning under the influence of
formalism and ritualism. The Wes-
leys cried out mightily to God in
prayer, and God gave England to the
influence of a wonderful revival. The
church of England looks back to the
Pentecost; doing this, they must ad-
mit the great power of revivals.
Even the Catholic church, thinking
of Pentecost, must admit that their
great church was born under the in-
fluence of a revival.

You must cleanse East Liverpool
through the power of God—through a
revival of religion in your hearts and
lives. Why must you do this? Be-
cause Schiverea says so? Ah, no, my
friend—because God says so. He de-
mands it.

Look at your churches. The un-
converted members must be saved or
driven out. They cannot stand in
the way of God. When the Master
makes His power felt—His presence
known, then men must become con-
verted or flee away from the divine
influence.

God can and will save to the utter-
most. Think of this. Why, only last
night God came in mighty power and
converted a man some 75 years of age;
a man who rarely thought of sacred
matters. Our God is a wonderful
God. Wonderful in loving kindness
and in mercy towards fallen hu-
manity.

Do you doubt the power of revivals?
Do you dare stand in their way? Why,
men and women of East Liverpool,
eighty out of every one hundred souls
saved, are saved through the influence
and power of revival work.

Take myself. I was preparing for
the stage. It was to be my life work.
I had no use for the church of God, no
use for the bible; no use for the gos-
pel. D. L. Moody, the revivalist,
came along—came to Brooklyn and
opened up in the rink. Four
nights previously, I was making
preparations for my life upon the
stage. Someone said "Let's go hear
Moody and Sanker." The query came:
"Who are they? What do they want?"

What gospel is this they are preach-
ing?" But I went to hear Moody, and
took a back seat in an audience of
over 7,000 people. Then Sanker sang
to us in his wonderful voice. I was
touched, despite myself, for I am very
susceptible to the power of song. Then
Moody followed with his Bible read-
ings, showing the blessed book to be
the greatest power on earth in the
salvation of immortal souls. I was
christened a Roman Catholic. Moody
pointed me to Jesus, and directed me
to the foot of the cross, to the mercy
seat; a passport to heaven; a passport
to the presence of our God. I was
amazed. It was a revelation
to me; it was wonderful in its mean-
ing and power. I was led to think,
to study over the matter, to pray. In
a few nights I was on my knees, and
God, for Christ's sake, pardoned my
sins. I was saved in the year 1876,
twenty years ago, and for seventeen
years I have been traveling about the
world, in this and foreign countries,
telling the story of Jesus and His
love; telling of the beauties and power
contained in the book of inspiration,
the holy Bible—God's word. Take it
away from me? Never! I would be
blind and could not see. I would be
like the mariner without chart or
compass. It must be read in the pub-
lic schools. It must lead the people.
It is a most wonderful educator.

Sometimes God permits suffering to
come upon a people for their good.
You may be made to suffer awfully,
in order that you may realize your true
situation, and be compelled to cry out
for mercy. What does all this talk
about war mean? Why are prepara-
tions being made for bloodshed and

Miss Jessop Lost Her Position
Last Night.

THE BOARD OF EDUCATION MEET

A Communication Received Which
States that She Cannot Conform With
the Board's Orders—Petitions Laid
Over.

The board of education met last
night, with all members present ex-
cept Owen.

The meeting was called for the pur-
pose of transacting business that was
laid over from last Monday night.
The proposition of the Smead com-
pany was read, and after some discus-
sion on the subject, Members Nellis
and Golding were appointed a com-
mittee to correspond with the com-
pany. A few bills were ordered paid.
Then a communication from Miss
Jessop was read, which is as follows:

EAST LIVERPOOL, O., March 4,
To the Board of Education.

Since giving you my answer on Fri-
day I have found that my conscience
will not be stilled and trampled upon
at will. I have given you plan a fair
trial and find that to continue to do
so is to dishonor God. "One and God
make a majority," and I am going to
help make that majority. I have de-
cided it as a personal matter and no
pressure brought to bear upon the
other side can again alter my decision.
My only regret is that I did not let
conscience be my guide before. I
have tried to shoulder the blame and
responsibility upon the board, but I
cannot do it. I cannot make the
board responsible for my acts. After
today I cannot feel myself bound to
omit my Bible reading, but as hereto-
fore, will serve God first.

Yours truly,
FLORENCE M. JESSOP.

This communication was first
handed to Professor Sanor, who in the
following letter advised Miss Jessop
to resign her position.

EAST LIVERPOOL, March 4.

DEAR MISS JESSOP.—In view of the
fact that you have interpreted the
rule of the board of education in re-
gard to the formal reading of the
Bible to include the method of Bible
readings which you say you have had
in your school; and since you have
concluded that you cannot obey the
rule of the board as you interpret it,
I see no course for you to pursue,
other than to hand in your resigna-
tion as teacher in the public schools
of this city. I regret to say that I
shall expect your resignation in my
hands by 4:30 this afternoon.

Your place will probably be oc-
cupied by another tomorrow morning.

S. D. SANOR,
Superintendent.

Miss Jessop replied in a short note
that she would only consider her
place vacant when formally dis-
missed.

There was then some talk in the
board meeting of changing the resolu-
tions adopted in the case of Miss
Little, so that it would apply to any
teacher that disobeyed the orders of
the board, so as to save them the
trouble of drafting a new set in every
case.

After the letter was read to the
board, the following resolutions were
drawn up:

WHEREAS, Miss Jessop, a teacher in
the Fourth street building, declines to
conform to the rules and regulations
governing the schools, as adopted by
the board; therefore,

Resolved, That Miss Jessop be dis-
missed as a teacher, her services end-
ing with this date, and that the
superintendent fill her place upon
tomorrow morning.

Mr. Taylor moved they be accepted
and was seconded by Mr. Golding, all
members voting for it with the ex-
ception of Mrs. Whitehead.

The petitions presented by the
various Young Peoples' societies last
Monday night were laid over.

Miss Jessop has the warm sympathy
of every good and true citizen for
stand she has taken and the members
of the board have shouldered the re-
sponsibility and must accept the con-
sequences.

Miss Deldrick was placed in charge
of Miss Jessop's room this morning
until a teacher is selected to fill the
vacancy.

TRADES COUNCIL MET

And Discussed the Immigration Question.
Lengthy Session.

Trades council met in regular ses-
sion last night, and the meeting that
followed was an interesting one. The
question of the city owning and oper-
ating a light plant was discussed at
some length. The action of the city
council in considering the advisability
of this was given endorsement. The
"Unionist" was made the official
organ of the council. Then came a

debate on the stone immigration law.

It was admitted that the bill was
embodied with many good features,
but it was held that it also contained
clauses that they did not approve of.
Thomas Mumford, vice president of
the National Glass workers union, was
present and handled the above ques-
tion in an able and an intelligent
manner. An invitation was extended
to A. H. Clark to address the council
at a special meeting next Wednesday
night on the subject of "Labor."

PASSED AWAY.

Professor Gotschall Succumbed to Ty-
phoid Fever.

After an illness of less than two
weeks' duration with typhoid fever,
Professor George E. Gotschall passed
away about half-past 9 o'clock last
night. His parents were at his side
when he died.

Soon after death came the news was
carried to the rink and the sad intel-
ligence announced there. Professor
Gotschall was a thorough Christian
gentleman and made a host of friends
since coming here. He was a con-
sistent member of the Methodist
Episcopal church and was liked by
all. Universal sorrow was expressed at
his sudden demise. Because of Doc-
tor Huston's absence, Reverend Tag-
gart conducted funeral services at the
United Presbyterian church this
afternoon. The remains will be taken
tomorrow morning to Kilgore, Car-
roll county, the former home of the
deceased.

Professor Gotschall graduated at
Soto conservatory of music, and
after teaching music for a time, came
to this city, where he since has met
with great success.

The professor was 27 years of age,
and lived with the family of William
McClane, on Jefferson street.

RUNAWAYS AND ACCIDENTS.

A Number of Them Late Yesterday After-
noon.

Late yesterday afternoon, as St.
Burlingame was unloading empty
casks from a wagon at Goodwin's
pottery, the horse hitched to the
wagon took fright and started to run
away. The animal galloped wildly
around the corner and turned up
Forest street; two or three posts were
struck by the wagon and pulled out of
place. The horse was stopped at Wal-
nut street. The wagon was somewhat
demolished and the harness torn.

Soon after this, a horse tied to a
post in front of a Sixth street store
became fractious and almost ran into
the window of a store. It turned and
dashed across the street and was then
stopped. During the few brief
moments, the horse managed to
partly smash the wagon and break
the harness. The owner of the outfit,
"Holiness" Ward, was in an adjoining
store, and when he looked upon the
scene of desolation, he simply ex-
claimed philosophically, "Bless the
Lord."

Isaac Burlingame had a break down
near the cemetery, and was compelled
to foot it home.

TO MAKE THEM WORK.

Petition to Make Workhouse Prisoners
Improve Public Roads.

T. E. Swan, of Waynesburg, Wed-
nesday presented to the Stark county
commissioners the petitions circulated
in the county praying that workhouse
inmates be employed on the public
roads to improve these thoroughfares.
There were 539 signatures
attached, representing citizens
of Canton and Canton town-
ship, Pike township, Sandy township,
Bethlehem township and names of
persons scattered throughout the
county. The same petition was con-
sidered by the board of managers of
the workhouse Tuesday, but no
action was taken. There will prob-
ably be a joint meeting of the work-
house managers and the county com-
missioners called at an early date to
consider the matter proposed in the
petition. This is a move in the right
direction and should meet with suc-
cess.

THE ARMORY QUESTION.

A Bill Introduced in the Legislature on
Behalf of Cleveland.

Members of the Ohio National
Guard in this city and elsewhere will
watch with interest a bill introduced
on behalf of Cleveland. The disposi-
tion of the bill will, in a measure, show
the attitude of the legislature on the
armory question. The Cleveland
measure, introduced by Senator Clark,
appropriates \$75,000 from the general
revenue fund of the state to be ex-
pended by the Cuyahoga county com-
missioners in completing the Central
armory. That its fate will be decided
rather speedily is probable, as Mr.
Clark succeeded in having the bill
read the second time under suspension
of the rules, and referred to the
finance committee. It is thought
that it will be reported back and put
on its passage next week.

AND STILL THEY COME

The Woman's Foreign Mis-
sionary Society

OF THE FIRST M. E. CHURCH

Adopts a Resolution Sounding a Very
Vigorous Protest Against the Action of
the School Board and Commends Miss
Little For Her Christian Courage.

EAST LIVERPOOL, O., March 5, 1896.

We, the members of the Woman's
Foreign Missionary Society, of the
First M. E. church, of East Liver-
pool, Ohio, desire to sound a clarion
like protest against the action of our
school board in banishing the Holy
Bible from our schools, and to com-
mend the courage of the Christian
woman who dared to oppose the
action, because of an insult to the God
whom she serves. Not only was it an
insult to God, but an insult to every
worker for the spreading and advance-
ment of His Kingdom. We cheerfully
give of our money, time and strength
for the support of teachers and bible
readers in this foreign field, while at
home in our own public school, this
very bible is ostracised. What an in-
dignity to heathen mothers and chil-
dren! We appeal to every worker
in the missionary cause to rise
in your might and strength, and not
allow your own children to be robbed
of the bread you seek to give to others.

We honor the Christian teachers who
dared stand by their convictions. Oh,
for more just such loyal and true
hearts. True to self and true to God.
"Them that honor me I will honor,
and they that despise me shall be
lightly esteemed." We feel this is no
time for half-hearted service. The
battle is between God and mammon.
On which side, dear sister, are you?
"He that is not with me is against
me." For the furtherance of Christ's
kingdom, many of us know what
work and sacrifice means, and we
deem it a blessing and an honor to
be counted worthy to work for the
Master; but let us be just as ready and
willing to stand by the work in our
own city and home.

In the name of "Him who hath
loved us and bought us with his own
precious blood," we ask that the open
Bible be placed in our schools.
WOMAN'S FOREIGN MISSIONARY SO-
CIETY OF THE FIRST M. E. CHURCH.

MISS JESSOP'S PUPILS

Desire to Have a Word to Say About Their
Teacher.

Special to the News Review.

"Miss Jessop is counted as one of the
best teachers in the Central school, and
to show that she is, her register and
her pupils will show. Another thing
is, that I know she is, because she is
my teacher, and if she did leave school
it was on a very good account, and I
think it would not hurt the school
board to get or to have as much re-
ligion as Miss Jessop has.

FROM ONE OF HER SCHOLARS.

Please put in a good place."
A number of communications of a
like character have been handed in at
the News Review office, by pupils of
Miss Little. We like to see the boys
and girls stand up so nobly for those
who have espoused the cause of right
and truth; but we suggest to the
youngsters the fact that Miss Little
and Miss Jessop have fallen into good
hands, and that their interests will be
carefully looked after by true men and
women. Go to the rink, children, and
hear Evangelist Schiverea tell about
the blessings which God gives to those
who read the Bible and who love its
teachings.

TO THE GREAT BEYOND.

Lottie Whan Passed Peacefully Away
Last Night.

Lottie Whan, the 10-year-old
daughter of Mrs. Emmett Whan, died
last evening at 6 o'clock, at her home,
corner of Seventh and Franklin
streets, after a lingering illness, of
consumption. The little one was a
very patient sufferer and had a lo-
vable character that endeared her to
all. She died with a perfect faith
and her many friends have the con-
fidence that she has gone to a better
world. The bereaved mother has the
heartfelt sympathy of all in her sor-
row. Funeral services will be con-
ducted at the house this evening at
7:30 o'clock by Dr. John Lloyd Lee,
and the remains will be taken to East
Palestine tomorrow morning for in-
terment.

Will Meet Tonight.

The Young Men's Christian associa-
tion base ball club will meet in the
rooms tonight and organize for
the coming season. It is intended to
put the club on a sound financial basis
and to give the East Liverpool lovers
of sport a chance to see the kind of
base ball that was witnessed in this
city during the regime of the old
Eclipse team.

A Splendid Audience Greeted
Evangelist Schiverea.

THE OUTLOOK IS ENCOURAGING

pected to Accomplish Great Good in the

At 7:30 last night, at the rink, the

barring of the Bible from the public
schools. Miss Jessop was told that
she must cease reading the Bible to
the scholars under her charge, or ac-
cept the alternative of losing her place—
her means of obtaining a living. She
compromised the matter with her
conscience, and for the past week she
has been suffering intense agony in
consequence. And now, thank
God, she has won the victory, and has
determined to read the Bible to her
pupils, even if she loses her position.
I pray God that the time may soon
come when these school directors of
East Liverpool may lose their places.
Who placed these directors in power?
Did not the people—the voters? God
bless the voters of East Liverpool—
those who will vote against infidelity
and agnosticism. God save our blessed

land, or we will soon be like unto mis-
erable, unfortunate France. Take
the Bible from your land, from your
public schools, and you have not the
shadow of a foundation for good gov-
ernment to rest upon; nothing upon
which to establish good morals, clean
life, social purity, happiness in the
home circle. Oh, how you need a
revival in this city at the present
time. In the first five thousand years
after Adam there were no revivals of
note; and then came revival influ-
ences, and the world grew better.
Look at grand old Luther; he could
not rest easy under the burden of sin,
iniquity and false teachings which
surrounded him on every hand, and
he pleaded mightily with God for a
revival, and God answered his prayer
with mighty power.

See brave and grand John Knox
sorrowing over sin in his beloved Scot-
land, until he cried out in the agony
of prayer, "I want Scotland, or I'll
die." The loving, prayer-answering
God gave John Knox, the eminent
Presbyterian divine, the desire of his
heart, and Scotland was saved to the
Master, under the influence of a won-
derful revival of religion.

Look at the Wesley brothers in
England, when that great nation was
groaning under the influence of
formalism and ritualism. The Wes-
leys cried out mightily to God in
prayer, and God gave England to the
influence of a wonderful revival. The
church of England looks back to the
Pentecost; doing this, they must ad-
mit the great power of revivals. Even
the Catholic church, thinking
of Pentecost, must admit that their
great church was born under the influ-
ence of a revival.

You must cleanse East Liverpool
through the power of God—through a
revival of religion in your hearts and
lives. Why must you do this? Be-
cause Schiverea says so. Ah, no, my
friend—because God says so. He de-
mands it.

Look at your churches. The un-
converted members must be saved or
driven out. They cannot stand in
the way of God. When the Master
makes His power felt—His presence
known, then men must become con-
verted or flee away from the divine
influence.

God can and will save to the utter-
most. Think of this. Why, only last
night God came in mighty power and
converted a man some 75 years of age;
a man who rarely thought of sacred
matters. Our God is a wonderful
God. Wonderful in loving kindness
and in mercy towards fallen hu-
manity.

Do you doubt the power of revivals?
Do you dare stand in their way? Why,
men and women of East Liverpool,
eighty out of every one hundred souls
saved, are saved through the influence
and power of revival work.

Take myself. I was preparing for
the stage. It was to be my life work.
I had no use for the church of God, no
use for the bible; no use for the gos-
pel. D. L. Moody, the revivalist,
came along—came to Brooklyn and
opened up in the rink. Four
nights previously, I was making
preparations for my life upon the
stage. Someone said "Let's go hear
Moody and Sankey." The query came:
"Who are they? What do they want?
What gospel is this they are preach-
ing?" But I went to hear Moody, and
took a back seat in an audience of
over 7,000 people. Then Sankey sang
to us in his wonderful voice. I was
touched, despite myself, for I am very
susceptible to the power of song. Then
Moody followed with his Bible read-
ings, showing the blessed book to be
the greatest power on earth in the
salvation of immortal souls. I was
christened a Roman Catholic. Moody
pointed me to Jesus, and directed me
to the foot of the cross, to the mercy
seat; a passport to heaven; a passport
to the presence of our God. I was
amazed. It was a revelation
to me; it was wonderful in its mean-
ing and power. I was led to think,
to study over the matter, to pray. In
a few nights I was on my knees, and
God, for Christ's sake, pardoned my
sins. I was saved in the year 1876,
twenty years ago, and for seventeen
years I have been traveling about the
world, in this and foreign countries,
telling the story of Jesus and His
love; telling of the beauties and power
contained in the book of inspiration,
the holy Bible—God's word. Take it
away from me? Never! I would be
blind and could not see. I would be
like the mariner without chart or
compass. It must be read in the pub-
lic schools. It must lead the people.
It is a most wonderful educator.

Sometimes God permits suffering to
come upon a people for their good.
You may be made to suffer awfully,
in order that you may realize your true
situation, and be compelled to cry out
for mercy. What does all this talk
about war mean? Why are prepara-
tions being made for bloodshed and

THE BOARD OF EDUCATION MEET

A Communication Received Which
States that She Cannot Conform With
the Board's Orders—Petitions Laid
Over.

The board of education met last
night, with all members present ex-
cept Owen.

The meeting was called for the pur-
pose of transacting business that was
laid over from last Monday night.
The proposition of the Smead com-
pany was read, and after some discus-
sion on the subject, Members Nellis
and Golding were appointed a com-
mittee to correspond with the com-
pany. A few bills were ordered paid.
Then a communication from Miss
Jessop was read, which is as follows:

EAST LIVERPOOL, O., March 4,
To the Board of Education.
Since giving you my answer on Fri-
day I have found that my conscience
will not be stilled and trampled upon
at will. I have given your plan a fair
trial and find that to continue to do
so is to dishonor God. "One and God
make a majority," and I am going to
help make that majority. I have de-
cided it as a personal matter and no
pressure brought to bear upon the
other side can again alter my decision.
My only regret is that I did not let
conscience be my guide before. I
have tried to shoulder the blame and
responsibility upon the board, but I
cannot do it. I cannot make the
board responsible for my acts. After
today I cannot feel myself bound to
omit my Bible reading, but as hereto-
fore, will serve God first.

Yours truly,
FLORENCE M. JESSOP.
This communication was first
handed to Professor Sanor, who in the
following letter advised Miss Jessop
to resign her position.

EAST LIVERPOOL, March 4.
DEAR MISS JESSOP.—In view of the
fact that you have interpreted the
rule of the board of education in re-
gard to the formal reading of the
Bible to include the method of Bible
readings which you say you have had
in your school; and since you have
concluded that you cannot obey the
rule of the board as you interpret it,
I see no course for you to pursue,
other than to hand in your resigna-
tion as teacher in the public schools
of this city. I regret to say that I
shall expect your resignation in my
hands by 4:30 this afternoon.

Your place will probably be occu-
pied by another tomorrow morning.
S. D. SANOR,
Superintendent.
Miss Jessop replied in a short note
that she would only consider
her place vacant when formally dis-
missed.

There was then some talk in the
board meeting of changing the resolu-
tions adopted in the case of Miss
Little, so that it would apply to any
teacher that disobeyed the orders of
the board, so as to save them the
trouble of drafting a new set in every
case.

After the letter was read to the
board, the following resolutions were
drawn up:
WHEREAS, Miss Jessop, a teacher in
the Fourth street building, declines to
conform to the rules and regulations
governing the schools, as adopted by
the board; therefore,
Resolved, That Miss Jessop be dis-
missed as a teacher, her services end-
ing with this date, and that the
superintendent fill her place upon
tomorrow morning.

Mr. Taylor moved they be accepted
and was seconded by Mr. Golding, all
members voting for it with the ex-
ception of Mrs. Whitehead.

The petitions presented by the
various Young People's societies last
Monday night were laid over.

Miss Jessop has the warm sympathy
of every good and true citizen for the
stand she has taken and the members
of the board have shouldered the re-
sponsibility and must accept the con-
sequences.

Miss Deldrick was placed in charge
of Miss Jessop's room this morning
until a teacher is selected to fill the
vacancy.

TRADES COUNCIL MET

And Discussed the Immigration Question.
Lengthy Session.

Trades council met in regular ses-
sion last night and the meeting that
followed was an interesting one. The
question of the city owning and operat-
ing a light plant was discussed at
some length. The action of the city
council in considering the advisability
of this was given endorsement. The
"Unionist" was made the official
organ of the council. Then came a

debate on the stone immigration law.

It was admitted that the bill was
embellished with many good features,
but it was held that it also contained
clauses that they did not approve of.
Thomas Mumford, vice president of
the National Glass workers union, was
present and handled the above ques-
tion in an able and an intelligent
manner. An invitation was extended
to A. H. Clark to address the council
at a special meeting next Wednesday
night on the subject of "Labor."

PASSED AWAY.

Professor Gotschall Succumbed to Ty-
phoid Fever.

After an illness of less than two
weeks' duration with typhoid fever,
Professor George E. Gotschall passed
away about half-past 9 o'clock last
night. His parents were at his side
when he died.

Soon after death came the news was
carried to the rink and the sad intel-
ligence announced there. Professor
Gotschall was a thorough Christian
gentleman and made a host of friends
since coming here. He was a con-
sistent member of the Methodist
Episcopal church and was liked by
all. Universal sorrow is expressed at
his sudden demise. Because of Doc-
tor Huston's absence, Reverend Tag-
gart conducted funeral services at the
United Presbyterian church this
afternoon. The remains will be taken
tomorrow morning to Kilgore, Car-
roll county, the former home of the
deceased.

Professor Gotschall graduated at
Seloto conservatory of music, and
after teaching music for a time, came
to this city, where he since has met
with great success.

The professor was 27 years of age,
and lived with the family of William
McClane, on Jefferson street.

RUNAWAYS AND ACCIDENTS.

A Number of Them Late Yesterday After-
noon.

Late yesterday afternoon, as Si
Burlingame was unloading empty
casks from a wagon at Goodwin's
pottery, the horse hitched to the
wagon took fright and started to run
away. The animal galloped wildly
around the corner and turned up
Forest street; two or three posts were
struck by the wagon and pulled out of
place. The horse was stopped at Wal-
nut street. The wagon was somewhat
damaged and the harness torn.

Soon after this, a horse tied to a
post in front of a Sixth street store
became fractious and almost ran into
the window of a store. It turned and
dashed across the street and was then
stopped. During the few brief
moments, the horse managed to
partly smash the wagon and break
the harness. The owner of the outfit,
"Holiness" Ward, was in an adjoining
store, and when he looked upon the
scene of desolation, he simply ex-
claimed philosophically, "Bless the
Lord."

Isaac Burlingame had a break down
near the cemetery, and was compelled
to foot it home.

TO MAKE THEM WORK.

Petition to Make Workhouse Prisoners
Improve Public Roads.

T. E. Swan, of Waynesburg, Wed-
nesday presented to the Stark county
commissioners the petitions circulated
in the county praying that workhouse
inmates be employed on the public
roads to improve these thoroughfares.
There were 539 signatures
attached, representing citizens
of Canton and Canton town-
ship, Pike township, Sandy township,
Bethlehem township and names of
persons scattered throughout the
county. The same petition was con-
sidered by the board of managers of
the workhouse Tuesday, but no
action was taken. There will prob-
ably be a joint meeting of the work-
house managers and the county com-
missioners called at an early date to
consider the matter proposed in the
petition. This is a move in the right
direction and should meet with suc-
cess.

THE ARMORY QUESTION.

A Bill Introduced in the Legislature on
Behalf of Cleveland.

Members of the Ohio National
Guard in this city and elsewhere will
watch with interest a bill introduced
on behalf of Cleveland. The disposi-
tion of the bill will, in a measure, show
the attitude of the legislature on the
armory question. The Cleveland
measure, introduced by Senator Clark,
appropriates \$75,000 from the general
revenue fund of the state to be ex-
pended by the Cuyahoga county com-
missioners in completing the Central
armory. That its fate will be decided
rather speedily is probable, as Mr.
Clark succeeded in having the bill
read the second time under suspension
of the rules, and referred to the
finance committee. It is thought
that it will be reported back and put
on its passage next week.

AND STILL THEY COME

The Woman's Foreign Mis-
sionary Society

OF THE FIRST M. E. CHURCH

Adopts a Resolution Sounding a Very
Vigorous Protest Against the Action of
the School Board and Commends Miss
Little For Her Christian Courage.

EAST LIVERPOOL, O., March 5, 1896.

We, the members of the Woman's
Foreign Missionary Society, of the
First M. E. church, of East Liver-
pool, Ohio, desire to sound a clarion
like protest against the action of our
school board in banishing the Holy
Bible from our schools, and to com-
mend the courage of the Christian
woman who dared to oppose the
action, because of an insult to the God
whom she serves. Not only was it an
insult to God, but an insult to every
worker for the spreading and advance-
ment of His Kingdom. We cheerfully
give of our money, time and strength
for the support of teachers and bible
readers in this foreign field, while at
home in our own public school, this
very bible is ostracised. What an in-
dignity to heathen mothers and chil-
dren! We appeal to every worker
in the missionary cause to rise
in your might and strength, and not
allow your own children to be robbed
of the bread you seek to give to others.
We honor the Christian teachers who
dared stand by their convictions. Oh,
for more just such loyal and true
hearts. True to self and true to God.
"Them that honor me I will honor,
and they that despise me shall be
lightly esteemed." We feel this is no
time for half-hearted service. The
battle is between God and mammon.
On which side, dear sister, are you?
"He that is not with me is against
me." For the furtherance of Christ's
kingdom, many of us know what
work and sacrifice means, and we
deem it a blessing and an honor to
be counted worthy to work for the
Master; but let us be just as ready and
willing to stand by the work in our
own city and home.

In the name of "Him who hath
loved us and bought us with his own
precious blood," we ask that the open
Bible be placed in our schools.

CIETY OF THE FIRST M. E. CHURCH.

MISS JESSOP'S PUPILS

Desire to Have a Word to Say About Their
Teacher.

Special to the NEWS REVIEW.
"Miss Jessop is counted as one of the
best teachers in the Central school, and
to show that she is, her register and
her pupils will show. Another thing
is, that I know she is, because she is
my teacher, and if she did leave school
it was on a very good account, and I
think it would not hurt the school
board to get or to have as much re-
ligion as Miss Jessop has.

FROM ONE OF HER SCHOLARS.

Please put in a good place."
A number of communications of a
like character have been handed in at
the NEWS REVIEW office, by pupils of
Miss Little. We like to see the boys
and girls stand up so nobly for those
who have espoused the cause of right
and truth; but we suggest to the
youngsters the fact that Miss Little
and Miss Jessop have fallen into good
hands, and that their interests will be
carefully looked after by true men and
women. Go to the rink, children, and
hear Evangelist Schiverea tell about
the blessings which God gives to those
who read the Bible and who love its
teachings.

TO THE GREAT BEYOND.

Lottie Whan Passed Peacefully Away
Last Night.

Lottie Whan, the 10-year-old
daughter of Mrs. Emmett Whan, died
last evening at 6 o'clock, at her home,
corner of Seventh and Franklin
streets, after a lingering illness, of
consumption. The little one was a
very patient sufferer and had a lov-
able character that endeared her to
all. She died with a perfect faith
and her many friends have the con-
fidence that she has gone to a better
world. The bereaved mother has the
heartfelt sympathy of all in her sor-
row. Funeral services will be con-
ducted at the house this evening at
7:30 o'clock by Dr. John Lloyd Lee,
and the remains will be taken to East
Palestine tomorrow morning for in-
terment.

Will Meet Tonight.

The Young Men's Christian associa-
tion baseball club will meet in the
rooms tonight and organize for
the coming season. It is intended to
put the club on a sound financial basis
and to give the East Liverpool lovers
of sport a chance to see the kind of
base ball that was witnessed in this
city during the regime of the old
Eclipse team.

EAST LIVERPOOL, O., THURSDAY, MARCH 5.

For President, WILLIAM MCKINLEY, Of Ohio.

READ IT.

What? Read Florence Jessop's communication, published in the News Review of today, addressed to the board of education of East Liverpool. It has the right ring. The brave lady has the courage of her convictions.

THE LEGAL SIDE.

The legal side of the question of the power of the existing board of education is the one which now demands attention. If the members are and have been legally elected under the law of the state of Ohio, then they have certain authority in the premises. If they are serving under the old village law, contrary to existing laws controlling such matters, then they have not the shadow of authority, and proper legal measures should be taken to oust them. A committee of conservative, representative men and women, composed of those who believe that the Bible must be taught in the public schools, should be formed at once and take immediate action. If an election is ordered, and two members from each ward are to control, then the fight will be "for or against the Bible in the public schools." Women and men will have the right to vote, and East Liverpool Christians should speak in no uncertain terms. Turn on the light.

THE FIGHT IS ON.

There is apparently a determination on the part of the board of education (?) to demand the resignation of every teacher who will dare to read the Bible in the public schools of East Liverpool, and if the resignation is not forthcoming, then summary dismissal will result. We have not consulted a legally educated citizen on the subject, but simply make the following query in the cause of right and justice. Cannot the present supposititious board be restrained, by an injunction, from discharging any of the teachers, until the court determines if said board is a legal board or not? One member of the board said, at last night's meeting: "If these teachers are going to defy the board, and will persist in reading the Bible, then we might as well dismiss them all and close up the public schools." Then another member said: "Well, I wish the whole affair was back where it started from." And another prominent member said: "I am perfectly willing that the Bible shall be on every teacher's desk, and on every pupil's desk; but I want it read as a book of reference, to help in their studies, and not make the reading compulsory." Then, we understand, from reliable authority, that the entire board, personally, want the Bible in the schools and want it read; but conscientious, they want to do the will of their constituents. One member of the board said, last night, "there's a spring election coming, and then we will find out about the matter." Christian men and women, what did this latter member mean? Has he thrown down the gauntlet on the fight of "Bible or no Bible?" If he has, let your ballots speak in trumpet tones. God uses human instrumentalities to carry out his purposes.

A severe rheumatic pain in the left shoulder had troubled Mr. J. H. Loper, a well known druggist of Des Moines, Iowa, for over six months. At times the pain was so severe that he could not lift anything. With all he could do he could not get rid of it until he applied Chamberlain's Pain Balm. "I only made three applications of it," he says, "and have since been free from all pain." He now recommends it to persons similarly afflicted. It is for sale by A. H. Bulger, druggist.

WORKMAN SCHOOL LAW AMENDED

In a Bill Which Has Gone Through in the House—Bill Passed Making Lincoln's Birthday a Legal Holiday—Other Measures Considered.

COLUMBUS, March 5.—A bill has passed in the house amending the Workman school law so as to provide for the election of two additional school directors, who are given power to hire teachers.

Other bills passed in the senate were: Amending section 568 so as to confine the jurisdiction of justices to the townships where elected in cases where contiguous territory has been added to cities.

Making Feb. 12, Lincoln's birthday, a legal holiday.

A resolution to limit debate was indefinitely postponed.

These bills were introduced in the senate: Providing that state and local bonds must be made payable on Jan. 1 and July 1 in this country and in the lawful money of this country.

To regulate the practice and defining the necessary qualifications of architects.

Joint resolution to adjourn on Friday until Wednesday at 4 p. m.

The senate had under consideration a bill to reimburse Colonel Coit and pay his attorneys. The bill is still pending. It is bitterly opposed. It asks for \$30,000.

FORAKER MADE FAST TIME.

Takes a Special Train to Cleveland and Attends a Banquet.

CLEVELAND, March 5.—Senator-elect Foraker was the guest of honor last evening at the banquet given by the Thirty-second Ward Foraker club. He came from Cincinnati by special train on the Big Four railroad, leaving that city at 4 o'clock in the afternoon and arriving at 9:15.

That beats all previous railroad records between the two cities by 13 minutes. Senator Foraker responded to the toast, "The Republican Party," delivering an eloquent speech. The other distinguished speakers were Governor Bushnell and Lieutenant Governor Jones. The banquet was attended by all the leading Republicans of the city.

A Good Oil Producer Struck.

MCCONNELLSVILLE, O., March 5.—Oil was struck a few days ago at a depth of 130 feet in a well drilled on the farm of J. T. Stanton, cashier of the First National bank of McConnellsville. The pipe carrying the oil was too small to allow all the oil to be carried away which the pump threw, yet 45 barrels were pumped out in three hours. Experienced oil men put the capacity of the well at 200 barrels per day.

To Take the Strikers' Places.

CINCINNATI, March 5.—A new feature is appearing in the strike and lockout between the clothiers and garment cutters of this city. Manufacturers say they are importing cutters from New York and Chicago, where there are plenty of that class out of work.

No New Cases of Smallpox.

DAYTON, O., March 5.—Dr. G. W. Miller, the workhouse physician, says that there are no additional smallpox victims in the institution. Three of the afflicted prisoners are in a critical condition, six are convalescing and the rest are reported to be doing nicely.

B. & O. Southwestern All Right.

NEW YORK, March 5.—President E. R. Bacon of the Baltimore and Ohio Southwestern, a railroad, in an interview regarding the status of his company in the light of the receivership for the Baltimore and Ohio railroad, says that the Southwestern is absolutely solvent and that its earnings for the first half of the fiscal year were \$200,000 in excess of fixed charges, taxes and expenses.

PHILADELPHIA, March 5.—The one-hundred and third anniversary of Washington's second inauguration as president of the United States was observed last night by the Pennsylvania Society of Colonial Dames of America in the apartment in which that historic function occurred. WILD EXCITEMENT IN ITALY.

Defeat in Abyssinia Causes Rioting—General Baratieri May Be Executed.

ROME, March 5.—Further details have been received concerning the defeat of the Italians at the battle of Adowa, and they tend to confirm the most alarming reports circulated, although the exact number of men killed is not announced. It is believed, however, that 3,000 were killed.

General Baratieri's force consisted of 16 battalions of white troops (Italians), 4 battalions of native troops and 12 batteries of artillery, which was nearly wiped out.

Since the defeat no news has been received from General Baratieri's brigade, which was composed of seven white battalions and four batteries of artillery.

Generals Albertone and Arimondi and their brigades are also missing and it is believed they have been annihilated.

It is almost impossible to describe the state of excitement in Rome, and no such scenes have been witnessed since the occupation of this city by the Italian troops.

The whole population seems to be in the streets crying for the downfall of the ministry, and the entire police force as well as all the troops of the garrison are on duty.

The cabinet ministers have been holding meetings, but, so far as known, the king has not yet accepted Premier Crispi's resignation.

The whole country appears to be as excited as the inhabitants of the capital, and it is reported that rioting has occurred in several cities, notably Naples, Florence and Venice.

The offices and residences of all the ministers are guarded and the guards at the palace have been doubled.

Some of the reinforcements designed for the relief of the Italian army in Abyssinia were to depart from Pavia, but they were taken possession of bodily by the rioters. The soldiers were forced out of the cars in which they had taken their places (preparatory to departure) and the mob then tore up the rails along the track and made the soldiers promise not to leave the town.

General Baratieri's own report shows that he quitted the battlefield while the troops were still fighting and without knowing the fate of the column under General De Bormida and Arimondi. He will be tried for abandoning his post, the penalty of which is degradation and death.

Reports unfavorable to General Baratieri are assuming a darker color. A rapid escape to a position 100 kilometers from the army, which was left to its own guidance, is bitterly commented on.

Gone to Hunt in Africa.

NEW YORK, March 5.—Prof. Daniel Giraud Elliott, F. R. S. E., the author of "North American Shore Birds," has sailed on a hunting expedition to the interior of Africa to secure big game for the Field Columbian museum of Chicago.

THE HOME MISSION FUND.

New York Meeting Netted Quite a Sum For the Presbyterians.

NEW YORK, March 5.—At the headquarters of the Presbyterian Home mission, at 146 Fifth avenue, it is announced that the meeting at Carnegie hall netted \$5,800.

Recording Secretary Oscar E. Boyd stated that many persons present at the meeting who made no contribution at that time have signified their intention of sending in contributions within the next few days. Altogether it is expected that fully \$25,000 will be realized as a result of the meeting. It could not be ascertained whether President Cleveland has subscribed to the fund.

Archbishop Kenrick Dead.

ST. LOUIS, March 5.—Peter Richard Kenrick, who for nearly a half century prior to three years ago was Catholic archbishop of this diocese, has died in the 90th year of his age. The old gentleman had been in very feeble health for several years, and about two and a half years ago Bishop John J. Kane of Wheeling was elected to an archbishopric and sent here to relieve him.

An Italian Shoots Three Others.

NEW YORK, March 5.—Two Italian shoemakers and a woman who was in the shop in Third street, Jersey City, with them, have been shot by another Italian named Asmadillon Fiero. EAST LIVERPOOL, O., THURSDAY, MARCH 5.

For President,
WILLIAM McKINLEY,
Of Ohio.

READ IT.

What? Read Florence Jessop's com-
munication, published in the News
Review of today, addressed to the
board of education of East Liverpool.
It has the right ring. The brave lady
has the courage of her convictions.

THE LEGAL SIDE.

The legal side of the question of the
power of the existing board of educa-
tion is the one which now demands
attention. If the members are and
have been legally elected under the
law of the state of Ohio, then they
have certain authority in the
premises. If they are serving under
the old village law, contrary
to existing laws controlling such
matters, then they have not the
shadow of authority, and proper legal
measures should be taken to oust
them. A committee of conservative,
representative men and women, com-
posed of those who believe that the
Bible should be taught in the public
schools, should be formed at once and
take immediate action. If an election
is ordered, and two members from
each ward are to control, then the
fight will be "for or against the Bible
in the public schools." Women and
men will have the right to vote, and
East Liverpool Christians should
speak in no uncertain terms. Turn
on the light.

THE FIGHT IS ON.

There is apparently a determination
on the part of the board of educa-
tion (?) to demand the resignation of
every teacher who will dare to read
the Bible in the public schools of East
Liverpool, and if the resignation is
not forthcoming, then summary dis-
missal will result. We have not con-
sulted a legally educated citizen on
the subject, but simply make the fol-
lowing query in the cause of right
and justice. Cannot the present sub-
stitutive board be restrained, by an
injunction, from discharging any of
the teachers, until the court de-
termines if said board is a legal
board or not? One member
of the board said, at last night's meet-
ing: "If these teachers are going to
defy the board, and will persist in
reading the Bible, then we might as
well dismiss them all and close up the
public schools." Then another mem-
ber said: "Well, I wish the whole
affair was back where it started from."
And another prominent member said:
"I am perfectly willing that the Bible
shall be on every teacher's desk, and
on every pupil's desk; but I want it
read as a book of reference, to help
in their studies, and not make the read-
ing compulsory." Then, we under-
stand, from reliable authority, that
the entire board, personally, want the
Bible in the schools and want it
read; but conscientious, they want to
do the will of their constituents. One
member of the board said, last night,
"there's a spring election coming, and
then we will find out about the mat-
ter." Christian men and women, what
did this latter member mean? Has
he thrown down the gauntlet on the
fight of "Bible or no Bible?" If he has,
let your ballots speak in trumpet
tones. God uses human instrumentalities
to carry out his purposes.

A severe rheumatic pain in the left
shoulder had troubled Mr. J. H. Loper,
a well known druggist of Des Moines,
Iowa, for over six months. At times
the pain was so severe that he could
not lift anything. With all he could
do he could not get rid of it until he
applied Chamberlain's Pain Balm. "I
only made three applications of it,"
he says, "and have since been free
from all pain." He now recommends
it to persons similarly afflicted. It is
for sale by A. H. Bulger, druggist.

WORKMAN SCHOOL LAW AMENDED

In a Bill Which Has Gone Through In
the House—Bill Passed Making Lin-
coln's Birthday a Legal Holiday—Other
Measures Considered.

COLUMBUS, March 5.—A bill has passed
in the house amending the Workman
school law so as to provide for the elec-
tion of two additional school directors,
who are given power to hire teachers.
Other bills passed in the senate were:
Amending section 568 so as to confine
the jurisdiction of justices to the town-
ships where elected in cases where con-
tinguous territory has been added to cit-
ies.

Making Feb. 12, Lincoln's birthday, a
legal holiday.

A resolution to limit debate was in-
definitely postponed.

These bills were introduced in the
senate:

Providing that state and local bonds
must be made payable on Jan. 1 and
July 1 in this country and in the lawful
money of this country.

To regulate the practice and defining
the necessary qualifications of archi-
tects.

Joint resolution to adjourn on Friday
until Wednesday at 4 p. m.

The senate had under consideration a
bill to reimburse Colonel Coit and pay
his attorneys. The bill is still pending.
It is bitterly opposed. It asks for \$30,-
000.

FORAKER MADE FAST TIME.

Takes a Special Train to Cleveland and
Attends a Banquet.

CLEVELAND, March 5.—Senator-elect
Foraker was the guest of honor last
evening at the banquet given by the
Thirty-second Ward Foraker club. He
came from Cincinnati by special train
on the Big Four railroad, leaving that
city at 4 o'clock in the afternoon and
arriving at 9:15.

That beats all previous railroad re-
cords between the two cities by 13 min-
utes. Senator Foraker responded to the
toast, "The Republican Party," deliver-
ing an eloquent speech. The other dis-
tinguished speakers were Governor
Bushnell and Lieutenant Governor
Jones. The banquet was attended by
all the leading Republicans of the city.

A Good Oil Producer Struck.

McCONNELLSVILLE, O., March 5.—Oil
was struck a few days ago at a depth
of 130 feet in a well drilled on the farm
of J. T. Stanton, cashier of the First
National bank of McConnellsville. The
pipe carrying the oil was too small to
allow all the oil to be carried away
which the pump threw, yet 45 barrels
were pumped out in three hours. Ex-
perienced oil men put the capacity of
the well at 200 barrels per day.

To Take the Strikers' Places.

CINCINNATI, March 5.—A new feature
is appearing in the strike and lockout

DAYTON, O., March 5.—Dr. G. W.
Miller, the workhouse physician, says

dition, six are convalescing and the rest
are reported to be doing nicely.

NEW YORK, March 5.—President E.
R. Bacon of the Baltimore and Ohio
Southwestern railroad, in an interview
regarding the status of his company in
the light of the receivership for the

the Southwestern is absolutely solvent
and that its earnings for the first half
of the fiscal year were \$200,000 in ex-
cess of fixed charges, taxes and ex-
penses.

WILD EXCITEMENT IN ITALY.

Defeat In Abyssinia Causes Rioting—Gen-
eral Baratieri May Be Executed.

ROME, March 5.—Further details have
been received concerning the defeat of
the Italians at the battle of Adowa,
and they tend to confirm the most
alarming reports circulated, although
the exact number of men killed is not
announced. It is believed, however,
that 3,000 were killed.

General Baratieri's force consisted of
16 battalions of white troops (Italians),
6 battalions of native troops and 12 bat-
teries of artillery, which was nearly
wiped out.

Since the defeat no news has been re-
ceived from General Dabornida's bri-
gade, which was composed of seven
white battalions and four batteries of
artillery.

Generals Albertone and Arimondi
and their brigades are also missing and
it is believed they have been annihi-
lated.

It is almost impossible to describe the
state of excitement in Rome, and no
such scenes have been witnessed since
the occupation of this city by the Ital-
ian troops.

The whole population seems to be in
the streets crying for the downfall of
the ministry, and the entire police force
as well as all the troops of the garrison
are on duty.

The cabinet ministers have been hold-
ing meetings, but, so far as known, the
king has not yet accepted Premier Crispi-
eri's resignation.

The whole country appears to be as
excited as the inhabitants of the cap-
ital, and it is reported that rioting has
occurred in several cities, notably Na-
ples, Florence and Venice.

The offices and residences of all the
ministers are guarded and the guards at
the palace have been doubled.

Some of the reinforcements designed
for the relief of the Italian army in
Abyssinia were to depart from Pavia,
but they were taken possession of to-
day by the rioters. The soldiers were forced
out of the cars in which they had taken
their places preparatory to departure and
the mob then tore up the rails along the
track and made the soldiers promise
not to leave the town.

General Baratieri's own report shows
that he quitted the battlefield while the
troops were still fighting and without
knowing the fate of the column under
Generals Debornida and Arimondi. He
will be tried for abandoning his post,
the penalty of which is degradation and
death.

Reports unfavorable to General Bar-
tieri are assuming a darker color. A
rapid escape to a position 100 kilometers
from the army, which was left to his
own guidance, is bitterly commented on.

Gone to Hunt in Africa.

A U. S. FLAG BURNED.

Another Insult From the Angry Spaniards.

MORE DEMONSTRATIONS IN SPAIN.

Police Disperse a Mob in Madrid and Make Arrests—The Universities Temporarily Closed by the Government to Stop Disturbances by Students.

MADRID, March 5.—There have been renewed disturbances here and demonstrations of popular anger against the United States government. The students of the university seem to have been the offenders or leaders in the demonstration. In spite of the special prohibition directed against them by the government, the inhabitants indulged in renewed manifestation of the unfriendly sentiments against the United States.

They assembled before the Madrid university and there publicly burned an American flag. The police dispersed the meeting after making several arrests. As a result the cabinet council decided to temporarily close the universities. It was also decided to create a special budget for naval armaments. The premier, Senor Canovas del Castillo, denies that Spain is negotiating with any foreign power with regard to Cuba.

Negotiations are on foot for France to support Spain diplomatically in the Cuban affair in return for concessions in Morocco, including the French occupation of Tuat, the extension of the concession for Spanish railways to the French group holding it and the purchase of \$25,000,000 Cuban bonds from Spain by a Paris syndicate to provide funds for a Cuban war.

The feeling both political and financial is calmer on the news that President Cleveland is disposed to offer friendly mediation before he officially recognizes the belligerency of the Cubans. The principal newspapers now deprecate the demonstration and advocate prudence.

WORK ON THE BIG SHIPS.

The Cramps Pushing the New War Vessels to Rapid Completion.

PHILADELPHIA, March 5.—Although the officials at Cramp's shipyard say they have received no special orders to rush the three warships, the Massachusetts, Brooklyn and Iowa, to completion, because of the pending trouble with Spain, there is nevertheless an air of activity about the yard that contrasts strongly with the recent dullness there. The Massachusetts, a sister ship of the Indiana, will be given her preliminary sea trial about the middle of April. She is practically ready for her trial, only needing two of her big 11-inch guns to complete her armament. These are expected to arrive from the Washington gun shops within a few days.

The cruiser Brooklyn has all of her main machinery in, and the work on her sloping protective deck is rapidly progressing. As she carries no heavy armor, she will not be subject to the delays encountered by the Massachusetts.

The battleship Iowa is still on the stocks, and her launch has been fixed for March 28. She is being plated up. Under fair conditions she could be completed, if badly needed, in about six months. The Iowa will be the most powerful ship in the United States navy.

GERMAN WARNING TO SPAIN.

Spaniards Had Better Control Their Feelings Toward the United States.

LONDON, March 5.—The Times has a dispatch from Berlin reporting that The Kolnische Zeitung has an article which is believed to represent the views of the government on the subject of the United States' attitude toward Cuba, and which treats neither the United States nor Spain with leniency.

It taunts the Americans with concealing their schemes of conquest under the mask of humanitarian sentiments, though, it adds, it is not their custom to clothe their ambitious designs in diplomatic form. It warns the Spaniards against giving violent expression to their national feeling, as they did in the Caroline islands dispute, because they have now to deal with a much less indulgent adversary than Germany.

FILIBUSTERING SHIP CAUGHT.

Authorities Only Able to Detain Her a Few Days.

WASHINGTON, March 5.—Captain Shoemaker, chief of the revenue cutter Seaboard, has received a telegram from Captain Harrington, commanding the cutter Merrill, at Port Tampa, Fla., stating that he had seized the schooner S. I. Mallory 40 miles south of St. Point, loaded with arms and ammunition, and that he had delivered her to the proper authorities at Port Tampa.

Notwithstanding this seizure the authorities here have little expectation of view of recent decisions of the court of making out any case against the Mallory that will detain her longer than a few days.

WEYLER CAN'T UNDERSTAND.

He Is Surprised at Our Wanting to Recognize the Rebels.

HAVANA, March 5.—Captain General Weyler, the commander-in-chief, in talking over the situation, said:

"I cannot understand the sentiments which lead the United States congress to do what it has done. If recognition of belligerency is formally declared, American property will lose the legal rights of protection by my soldiers it now enjoys. There are extensive American interests here, and if the United States recognizes the rebels, they relieve my government and myself from responsibility."

Rebels Badly Whipped in Cuba.

HAVANA, March 5.—General Bernald's brigade at Manzanillo has routed 3,000 rebels, killing 30 and wounding 50, capturing 400 horses, a quantity of arms and ammunition and explosives. The Spaniards lost four killed and eight wounded.

HOLMES DOOMED TO DIE.

A LAKE ERIE CANAL.

Secretary Lamont Submits Plans to Congress.

THREE ROUTES FOUND FEASIBLE.

The Estimated Cost of Each Waterway Given—The Board of Engineers Favors a Bigger Canal Than the Dimensions Prescribed in the Act.

WASHINGTON, March 5.—A plan has been submitted to congress for a canal connecting Lake Erie with the Ohio river. The secretary of war has sent to the house the report of a board of three engineers of the army of a survey of the Miami and Erie canal, the Ohio canal and connections available to make a continuous canal connecting the waters of Lake Erie with the Ohio river through the state of Ohio. The survey was also to look to the feasibility and advisability of improving and widening the canal to 70 feet and deepening it to seven feet. Plans and cost were also required for the construction of locks with a capacity for vessels of at least 280 tons burden.

The board considers the following routes available for continuous canals making the required connections: First, eastern route, Cleveland to Marietta; second, central route, Sandusky Bay to Portsmouth; third, western route, Toledo to Cincinnati.

On all these routes the water supply is such that with necessary improvements it is practicable to construct a canal of the kind required that can be operated at its full capacity for 275 days each year.

The estimated cost of each waterway of the prescribed dimensions is: Eastern route, \$12,399,372; central route, \$18,094,165; to the latter may be added, if necessary, cost of feeder from Lewisville reservoir to the Scioto valley \$24,000, making the whole sum for the central route \$18,118,165; western route, \$23,011,374.

The board concludes that while it would be feasible to construct a canal of the dimensions specified, it would by reason of inadequate depth in the canal and the Ohio be restricted in its benefits.

In the opinion of the board the construction of a canal of such dimensions, or a part from an adequate improvement of the Ohio river would not be advisable. The board has not considered it part of its duty to present any recommendation with regard to a canal of dimensions different from those prescribed in the act of congress. A canal having a uniform width of 85 feet and a depth of 10 feet would admit the passage of vessels that might be considered of about the least practicable size for lake navigation.

U. S. DISTRICT ATTORNEYS' SALARIES.

The House Fixing Them Under the Plan to Abolish Fees.

WASHINGTON, March 5.—The house spent the entire session fixing the salaries of the United States district attorneys in the amendment to the legislative appropriation bills to abolish the fee system. The law at present fixes the maximum salary from fees at \$6,000. In only one case was the recommendation of the judiciary committee departed from, the western district of Pennsylvania, where the salary recommended was increased from \$3,500 to \$4,000. The salaries for district attorneys were fixed as follows: Ohio, northern and southern, \$4,000 each; Pennsylvania, eastern and western, \$4,000 each; West Virginia, \$4,000.

Another street car left the track on the switch at the watering trough late yesterday afternoon. The third ward is recognized with more official favors than any other ward in the city. It has five members on the school board, two representatives in council, claims the position of sanitary police and health office while the offices of mayor and city solicitor are also filled by selections from that ward. Truly it has received a bountiful supply of political patronage.

To see a clean street in the city now-a-days is quite a rarity. There ought to be some way provided to keep them a little more respectful looking. Even the sidewalks on some of the most prominent thoroughfares are little better. On Fifth and Sixth streets portions of the pavement need to be re-laid, water having got in under the bricks, making the ground soft, and lowering the bricks a few inches from their regular level.

See That Window of Shirt Waists at The Crosser-Ogilvie Company's.

It will give you an idea of the stock they carry. No other house this side of Pittsburgh shows such a line; in fact we doubt if any city store shows a better line. This first invoice amounts to nearly one thousand dollars.

The cloak room is (comparatively speaking) full of shirt waists. It seems like a venture to put such a stock in an East Liverpool store, but the people of our city know a good thing when they see it. This fact was demonstrated last year in the shirt waist trade; the demand was greater than the supply. Not a garment was left at the end of the season. So every waist now shown is new and fresh. They are the same make sold last year

The Justine

No other store in the city has them. The fit is perfect, the style is high class, the work and quality of material is better than the general run of madeup garments. A little early to wear them just now, but they will keep. So drop in and look through the stock; and if you have a half dollar or a dollar, or a dollar and a half to spare, take one of the choice styles home with you. You get the cream now, for you have the entire stock to select from. While in the cloak room ask to see the line of

Ready-Made Skirts.

They come right in with the shirt waist trade. Made by the same manufacturer as the Justine waist. They are perfect in fit and style, and very much cheaper than you can have them made. They are in serges, mohairs, brillantines and broadened silks. Prices range from \$2.98 to \$12. There is also a large line of wrappers on display, and we think for style and price they are better than ever shown before. Prices are from 75c to \$2.75, just about the usual price charged for making. So you really save nearly the cost of material.

Money is still hard to get. You generally have to work for it. It is your duty to spend it where you get the best value for the hard earned dollar. Low priced goods are not always cheap. It requires quality to make good value, and good goods at low prices to make bargains. Try

APPEALS FOR MCKINLEY.

Thurston Roasts Manderson—Asks Nebraskaans to Support the Ohio Man.

OMAHA, March 5.—Senator Thurston has made public an appeal to Nebraska Republicans in favor of sending a McKinley delegation to St. Louis. It contains 200 words, and warns voters that the candidacy of General Charles Manderson of Nebraska is designed to defeat McKinley in the interest of other candidates, and not with the idea of Senator Manderson being elected. He concludes as follows:

"I ask in all candor and fairness, has any one man, however distinguished, any right to ask those Republicans who naturally and of their own free choice desire the nomination of William McKinley to assist in defeating him, until at least some assurance can be given of some outside support for a home candidate."

"If the 16 votes from Nebraska are to be used to defeat McKinley let it not be under the cover of false pretense which masks the real design."

"If McKinley is defeated and the Nebraska voters contribute to that defeat, those who participate in it must accept full responsibility."

St. Louis, March 5.—A local paper states that Senator Vest, in a letter to a prominent man here, now heartily favors the proposition to have the state convention elect the Chicago delegates, irrespective of the choice of districts, to the end that Missouri may send to the Democratic national convention a solid delegation that will work for free silver.

A U. S. FLAG BURNED.

Another Insult From the Angry Spaniards.

MORE DEMONSTRATIONS IN SPAIN.

Police Disperse a Mob in Madrid and Make Arrests—The Universities Temporarily Closed by the Government to Stop Disturbances by Students.

MADRID, March 5.—There have been renewed disturbances here and demonstrations of popular anger against the United States government. The students of the university seem to have been the offenders or leaders in the demonstration. In spite of the special prohibition directed against them by the government, the inhabitants indulged in renewed manifestation of the unfriendly sentiments against the United States.

They assembled before the Madrid university and there publicly burned an American flag. The police dispersed the meeting after making several arrests. As a result the cabinet decided to temporarily close the universities. It was also decided to create a special budget for naval armaments. The premier, Senor Canovas del Castillo, denies that Spain is negotiating with any foreign power with regard to Cuba.

Negotiations are on foot for France to support Spain diplomatically in the Cuban affair in return for concessions in Morocco, including the French occupation of Tunis, the extension of the concession for Spanish railways to the French group holding it and the purchase of \$25,000,000 Cuban bonds from Spain by a Paris syndicate to provide funds for a Cuban war.

The feeling both political and financial is calmer on the news that President Cleveland is disposed to offer friendly mediation before he officially recognizes the belligerency of the Cubans. The principal newspapers now deplore the demonstration and advocate prudence.

WORK ON THE BIG SHIPS.

The Cramps Pushing the New War Vessels to Rapid Completion.

PHILADELPHIA, March 5.—Although the officials at Cramp's shipyard say they have received no special orders to rush the three warships, the Massachusetts, Brooklyn and Iowa, to completion, because of the pending trouble with Spain, there is nevertheless an air of activity about the yard that contrasts strongly with the recent dullness there.

The Massachusetts, a sister ship of the Indiana, will be given her preliminary sea trial about the middle of April. She is practically ready for the trip, only needing two of her big 12-inch guns to complete her armament.

These are expected to arrive from the Washington gun shops within a few days.

The cruiser Brooklyn has all of her main machinery in, and the work on her sloping protective deck is rapidly progressing. As she carries no heavy armor, she will not be subject to the delays encountered by the Massachusetts.

The battleship Iowa is still on the stocks, and her launch has been fixed for March 28. She is being plated up. Under fair conditions she could be completed, if heavily needed, in about six months. The Iowa will be the most powerful ship in the United States navy.

GERMAN WARNING TO SPAIN.

Spaniards Had Better Control Their Feelings Toward the United States.

LONDON, March 5.—The Times has a dispatch from Berlin reporting that The Kolnische Zeitung has an article which is believed to represent the views of the government on the subject of the United States' attitude toward Cuba, and which treats neither the United States nor Spain with leniency.

It taunts the Americans with concealing their schemes of conquest under the mask of humanitarian sentiments, though, it adds, it is not their custom to clothe their ambitious designs in diplomatic form. It warns the Spaniards against giving violent expression to their national feeling, as they did in the Caroline islands dispute, because they have now to deal with a much less indulgent adversary than Germany.

FILIBUSTERING SHIP CAUGHT.

Authorities Only Able to Detain Her a Few Days.

WASHINGTON, March 5.—Captain Shoemaker, chief of the revenue cutter service, has received a telegram from Captain Haring, commanding the cutter Merrill, at Port Tampa, Fla., stating that he had seized the schooner S. I. Mallory 40 miles south of that point loaded with arms and ammunition, and that he had delivered her to the proper authorities at Port Tampa.

Notwithstanding this seizure the authorities here have little expectation of view of recent decisions of the court of making out any case against the Mallory that will detain her longer than a few days.

WEYLER CAN'T UNDERSTAND.

He Is Surprised at Our Wanting to Recognize the Rebels.

HAVANA, March 5.—Captain General Weyler, the commander-in-chief, in talking over the situation, said: "I cannot understand the sentiments which lead the United States congress to do what it has done. If recognition of belligerency is formally declared, American property will lose the legal rights of protection by my soldiers it now enjoys. There are extensive American interests here, and if the United States recognizes the rebels, they relieve my government and myself from responsibility."

Rebels Badly Whipped in Cuba.

HAVANA, March 5.—General Bernald's brigade at Mamei has routed 3,000 rebels, killing 30 and wounding 50 and capturing 400 horses, a quantity of arms and ammunition and explosives. The Spanish loss was four killed and eight wounded.

NANSEN NOT HEARD FROM.

Baron Tell Points Out the Inconsistency of the Report.

ST. PETERSBURG, March 5.—Baron Tell, the Russian explorer, who established the Nansen provision depots on the new Siberian islands, expresses the opinion that the date (Nov. 18) of the letter from Peter Ivanovich Kuchnaroff, the trader at St. Vansk, lessens the probability of the report regarding Nansen.

Inasmuch as Nansen himself, or a comrade, must have reached the mainland at the same time as the date of this letter, he says a direct communication from Nansen would have arrived long ago.

A SENATOR FATALLY CANED.

Senator Flood Assaults Senator Flanagan in the Virginia Legislature.

RICHMOND, March 5.—Senator Flood, in the senate chamber, has thrashed Senator Flanagan with a cane. Flood was arrested and bailed. Flanagan a day or two ago said on the floor that Flood had falsified him.

A LAKE ERIE CANAL.

Secretary Lamont Submits Plans to Congress.

THREE ROUTES FOUND FEASIBLE.

The Estimated Cost of Each Waterway Given—The Board of Engineers Favors a Bigger Canal Than the Dimensions Prescribed in the Act.

WASHINGTON, March 5.—A plan has been submitted to congress for a canal connecting Lake Erie with the Ohio river. The secretary of war has sent to the house the report of a board of three engineers of the army of a survey of the Miami and Erie canal, the Ohio canal and connections available to make a continuous canal connecting the waters of Lake Erie with the Ohio river through the state of Ohio. The survey was also to look to the feasibility and advisability of improving and widening the canal to 70 feet and deepening it to seven feet. Plans and cost were also required for the construction of locks with a capacity for vessels of at least 280 tons burden.

The board considers the following routes as feasible for continuous canals making the required connections: First, eastern route, Cleveland to Marietta; second, central route, Sandusky Bay to Portsmouth; third, western route, Toledo to Cincinnati.

On all these routes the water supply is such that with necessary improvements it is practicable to construct a canal of the kind required that can be operated at its full capacity for 275 days each year.

The estimated cost of each waterway of the prescribed dimensions is: Eastern route, \$12,299,372; central route, \$18,094,165; to the latter may be added, if necessary, cost of feeder from Lewis town reservoir to the Scioto valley \$24,000, making the whole sum for the central route \$18,118,165; western route, \$23,011,374.

The board concludes that while it would be feasible to construct a canal of the dimensions specified, it would by reason of inadequate depth in the canal and the Ohio be restricted in its benefits.

In the opinion of the board the construction of a canal of such dimensions, or a part from an adequate improvement of the Ohio river would not be advisable. The board has not considered it part of its duty to present any recommendation with regard to a canal of dimensions different from those prescribed in the act of congress. A canal having a uniform width of 85 feet and a depth of 10 feet would admit the passage of vessels that might be considered of about the least practicable size for lake navigation.

U. S. DISTRICT ATTORNEYS' SALARIES.

The House Fixing Them Under the Plan to Abolish Fees.

WASHINGTON, March 5.—The house spent the entire session fixing the salaries of the United States district attorneys in the amendment to the legislative appropriation bills to abolish the fee system. The law at present fixes the maximum salary from fees at \$6,000. In only one case was the recommendation of the judiciary committee departed from, the western district of Pennsylvania, where the salary recommended was increased from \$3,500 to \$4,000. The salaries for district attorneys were fixed as follows: Ohio, northern and eastern, \$4,000 each; Pennsylvania, eastern and western, \$4,000 each; West Virginia, \$4,000.

The request of the senate for a conference on the Cuban question was received but not acted upon.

Chester Certificates Ordered Paid.

WASHINGTON, March 5.—The United States treasury has been directed to redeem \$1,660,000 certificates of indebtedness of the United States issued in payment of the Cherokee strip, which was purchased from the Indians. Secretary Carlisle held that as these are government obligations no specific appropriation is necessary for their redemption. This is the first installment of certificates due March 6, 1896.

Akron is at present trying to solve the tramp problem by putting the vagrants to work. Eleven were put to work the other day and because the authorities would not feed them beef-steak and potatoes at every meal, quit labor in two days. They were then fed on bread and water and held out for two days, finally deciding to take what they could get.

Another street car left the track on the switch at the watering trough late yesterday afternoon. The motor-man was backing the car on to the switch again, and the rear wheels left the track and the car almost went over the hill. The promptness of the motorman in applying the brake prevented a catastrophe. Several lady passengers were badly scared at the narrow escape.

The Third ward is recognized with more official favors than any other ward in the city. It has five members on the school board, two representatives in council, claims the position of sanitary police and health office while the offices of mayor and city solicitor are also filled by selections from that ward. Truly it has received a bountiful supply of political patronage.

To see a clean street in the city now-a-days is quite a rarity. There ought to be some way provided to keep them a little more respectful looking. Even the sidewalks on some of the most prominent thoroughfares are little better. On Fifth and Sixth streets portions of the pavement need to be re-laid, water having got in under the bricks, making the ground soft, and lowering the bricks a few inches from their regular level.

See That Window of Shirt Waists at The Cressor-Ogilvie Company's.

It will give you an idea of the stock they carry. No other house this side of Pittsburg shows such a line; in fact we doubt if any city store shows a better line. This first invoice amounts to nearly one thousand dollars.

The cloak room is (comparatively speaking) full of shirt waists. It seems like a venture to put such a stock in an East Liverpool store, but the people of our city know a good thing when they see it. This fact was demonstrated last year in the shirt waist trade; the demand was greater than the supply. Not a garment was left at the end of the season. So every waist now shown is new and fresh. They are the same make sold last year

The Justine

No other store in the city has them. The fit is perfect, the style is high class, the work and quality of material is better than the general run of madeup garments. A little early to wear them just now, but they will keep. So drop in and look through the stock; and if you have a half dollar or a dollar, or a dollar and a half to spare, take one of the choice styles home with you. You get the cream now, for you have the entire stock to select from. While in the cloak room ask to see the line of

Ready-Made Skirts.

They come right in with the shirt waist trade. Made by the same manufacturer as the Justine waist. They are perfect in fit and style, and very much cheaper than you can have them made. They are in serges, mohairs, brilliantines and brocaded silks. Prices range from \$2.98 to \$12. There is also a large line of wrappers on display, and we think for style and price they are better than ever shown before. Prices are from 75c to \$2.75, just about the usual price charged for making. So you really save nearly the cost of material.

Money is still hard to get. You generally have to work for it. It is your duty to spend it where you get the best value for the hard earned dollar. Low priced goods are not always cheap. It requires quality to make good value, and good goods at low prices to make bargains. Try

APPEALS FOR MCKINLEY.

Thurston Roasts Manderson—Asks Nebraskans to Support the Ohio Man.

OMAHA, March 5.—Senator Thurston has made public an appeal to Nebraska Republicans in favor of sending a McKinley delegation to St. Louis. It contains 200 words, and warns voters that the candidacy of General Charles Manderson of Nebraska is designed to defeat McKinley in the interest of other candidates, and not with the idea of Senator Manderson being elected. He concludes as follows:

"I ask in all candor and fairness, has any one man, however distinguished, any right to ask those Republicans who naturally and of their own free choice desire the nomination of William McKinley to assist in defeating him, until at least some assurance can be given of some outside support for a home candidate."

"If the 16 votes from Nebraska are to be used to defeat McKinley let it not be under the cover of false pretense which masks the real design."

"If McKinley is defeated and the Nebraska voters contribute to that defeat, those who participate in it must accept full responsibility."

laughter? Why are the nations arm- ing and drilling? What does it all mean? It means that the nations of the world have turned away from God, and God will punish them for so doing. What do we need in this hour of dire need? We need and must have a revival of religion. The people must call unto God.

Look at the struggle between capital and labor. Think of the awful crime of Homestead. I was there at the time, and under God did what good I could. I love the workingmen. I love their souls. You can solve the labor trouble by coming to God— employer and employed. Get into God's army and you'll be all right. There was trouble in an establishment where 300 men and women were employed. The owner came to me and said that he was interested deeply in the welfare of his employees, and he wanted me to do what I could, through God, in the settlement of the trouble. I went among them and God blessed my work and the trouble was avoided and men and women called down blessings upon me. Yes, religion will settle the trouble. Give the working man a chance; yes, give him a chance. Let him be able to live comfortably—to have the comforts of life. Let the employer pay good, living wages, and the workman do a fair and honest day's work—value received. Let the golden rule control.

What a horror it is that the youth of the land are often taught to play cards in the home circle, by their mothers and sisters. This becomes tame after a while, and the gambling nells and haunts of vice are visited by these same youths, and a life of out- breaking sin and crime is the result. On next Sunday I'll exhibit the full paraphernalia of a converted gambler. He has been converted, has given me his kit of gambling tools; himself saved by Jesus, he wants others saved.

Get the lever of prayer under East Liverpool, oh ye Christian men and women, and God will do the work. I'm glad the Bible is barred from your schools. I'm glad it has taken place; yes, I'm glad it has been barred. Why? Because you will be awakened from your lethargy; you will be made to think over the situation; you will force an honest election; you will realize the awful danger to the public schools. God's hand is in this.

We want God's converts—not Schiv- erea's converts. Your ministers are grand men. They are educated men, Christian men, and have been getting the harvest ready. The harvest is now ripe, ready for the sickle, and they want helpers—extra hands—as does the farmer in har- vest time, to garner the grain; rally to their help, to the cause of our Heavenly Father.

Whitfield, the famous evangelist, met a drunken man who addressed him. The intoxicated man said: "What, you don't know me; why I'm one of your converts." Whitfield re- plied: "I might have known that it was some of my poor work; it could not have been God's."

The evangelist made a wonderful exhortation from Second Chronicles viii:14: "If my people, which are called by my name, shall humble them- selves and pray, and seek my face, and turn from their wicked ways, then will I hear from heaven, and will forgive their sins, and will heal their land."

Prayer meeting this morning, and each morning while the meetings last, at 9:30, in the Methodist. Protes- tant church; Bible reading each day at 2:30, in the United Presbyterian church.

You have a cordial invitation to these meetings. Go to the rink early tonight if you would secure a seat.

ON THE TRACK.

The Trolley Came Off Yesterday and the Car Stopped.

Superintendent Andrews had rather a thrilling experience yesterday after- noon. He was in charge of car No. 17 and was about to cross the railroad track at Second street going west. As the wheels of the car struck the rails the trolley flew off and the car came to a dead stop directly across the track, just as the 420 passenger train eastward bound was leaving the depot. The engineer quickly saw the danger ahead and immediately re- versed the lever, bringing the engine to a stop but a few feet distant from the street car. The trolley was put in place again and the car resumed its journey, the superintendent breath- ing much easier and not courting any desire to have any more such close calls.

Fireman Will Terrence was entrusted with the selec- tion of many of the badges heretofore sent for by the members of the department, and this last proves that he displays good taste in choosing. The badge is of solid gold and shaped in the form of a shield. Around the outer part of it are the words, "W. J. Taylor, Surgeon to Police and Fire- men." Inside of the medal is a star with the inscription, "East Liverpool, Ohio." The badge is of the latest de- sign and handsomely engraved. It will be formally presented to the doctor at the meeting of the firemen next Wednesday night.

COMPLAINTS

Are Not All Being Made by East End People.

A gentleman, whose reliability cannot be questioned, called at this office early this morning, and stated that he, too, wanted to register a com- plaint against the way the children were treated in regard to being ex- cused from the school room, during school hours. He said: "My boy attends the Fourth street school, and came home twice with his clothes in a badly soiled condition; once in October and once in December. The boy when questioned said that his teacher would not let him go out when he asked."

TAKE STEPS

In time, if you are a suf- ferer from that scourge of humanity known as consumption, and you can be cured. There is the evidence of hundreds of living witnesses to the fact that, in all its early stages, consump- tion is a curable disease. Not every case, but a large percentage of cases, and we believe, fully 95 per cent, are cured by Dr. Pierce's Golden Medical Discovery, even after the disease has pro- gressed so far as to induce repeated bleed- ings from the lungs, severe lingering cough with copious expectoration (including tubercular matter), great loss of flesh and ex- treme emaciation and weakness.

Do you doubt that hundreds of such cases reported to us as cured by "Golden Medical Discovery" were genuine cases of that dread and fatal disease? You need not take our word for it. They have, in nearly every instance, been so pronounced by the best and most experienced home physicians, who have no interest whatever in mis- representing them, and who were often strongly prejudiced and advised against a trial of "Golden Medical Discovery." Those who have been forced to confess that it surpasses, in curative power over this fatal malady, all other medicines with which they are acquainted. Nasty cod- liver oil and its filthy "emulsions" and catarrh and kindred maladies, have been skillfully reproduced in a book of 160 pages which will be mailed to you, on receipt of address and six cents in stamps. You can then write to those who have been cured and profit by their ex- perience.

DANGER IN EARLY RISING.

A Doctor's Theory That the Habit Helps to Make People Insane.

Dr. Selden H. Talcott, the medical superintendent of the Middletown State Insane asylum recently, started the theory that nothing conduces so much to insanity as early rising.

In proof of his assertion Dr. Talcott calls attention to the relative frequency with which farmers, their wives, sons and daughters become insane. The cause of this has hitherto been thought to be their isolated lives, their hard work and perhaps the excessive use of pie and potatoes.

On the other side, it has always seemed to Dr. Talcott and other eminent alienists that there must be some other deep seated cause of insanity among the farming classes than pie and potatoes. Farmers have always pure, fresh air in abundance, which city folk seldom have; they are less liable to mental and nervous strain than city folk and also less liable to infectious diseases and the bad effects of alcohol.

Dr. Talcott's view, after a careful consideration of the advantages and dis- advantages of farming life as a predis- posing cause of insanity, is that it is the excessively early hours of rising which increase insanity in the rural districts out of proportion to the urban and sub- urban rate. He thinks growing chil- dren in particular suffer severely from the "artificial cut off" which is applied so rigidly to their lives.

The report of the state commission in lunacy shows that during the year end- ing Sept. 30, 1894, 370 farmers, gar- deners and herdsmen were committed in New York state as lunatics. This is a larger number than in any other class except laborers, of whom there were 607 commitments.

As against these large classes there were only 54 members of the profes- sional classes committed, including clergy, military and naval officers, art- ists, authors, civil engineers and surveyors. There were only 45 men committed out of the large class of waiters, cooks, servants, miners and seamen. The class of male teachers, students, housekeep- ers and nurses gave only 23.—New York Times.

—Mrs. Harry Dawson returned to her home in Georgetown yesterday afternoon, after spending two weeks with her mother, Mrs. B. F. Boyd, of Walnut street.

—Rev. Chester Spencer, of the Christian church of Quaker City, took part in the services at the rink last night, and offered up a fervent prayer for God's blessing on the work.

"Perhaps you would not think so, out a very large proportion of diseases in New York comes from carelessness about catching cold," says Dr. Cyrus Edson. "It is such a simple thing and so common that very few people, unless it is a case of pneumonia, pay any attention to a cold. There are a great many cases of catarrh and con- sumption which have their origin in this neglect of the simplest precau- tion of every day life. The most sensible advice is, when you have one, get rid of it as soon as possible. By all means do not neglect it." Doctor Edson does not tell you how to cure a cold but he will. Take Chamberlain's Cough remedy. It will relieve the lungs, aid expectoration, open the secretions and soon effect a permanent cure. Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

A Millionaire's Hard Fate.

How sadly deficient some people are of any sense of humor when the subject is themselves! Take the Duke of Devon- shire, who delivered a speech at the opening of a "Passmore Edwards House" for epileptics. So long as he kept to the epileptics the duke managed well enough, but before he sat down he must needs get on the subject of him- self and the sorrows of the poor mil- lionaire:

"It might perhaps be considered pre- sumptuous for one who was reputed to be rich himself to offer advice to other rich men which he had not taken him- self or was not himself prepared to fol- low, but perhaps he might be allowed to point out that there was some difference between those who happened to be in the possession of wealth inherited from several generations and those who had created their own fortunes. Their pre- decessors, in cases like his own, had generally contrived to find quite as many channels by which wealth flowed out as by which it flowed in, and those who had for the benefit and advantage of their successors created great estates, en- tailing much labor in administration and many responsibilities, had not left to their successors a legacy of unmitigat- ed advantage."

The spectacle of the duke inviting the commiseration of his audience for the cruel fate which compelled him to keep up Chatsworth and Devonshire House instead of founding homes for epileptics is indeed excruciating.—West- minster Gazette.

Right For Once.

Two Scotsmen, one an Aberdonian and the other a man from Inverary, were engaged in a hot debate on the correctness of their respective modes of English pronunciation. At last he of the Granite City clinched matters by re- marking with withering contempt, "Weel, at any rate, I dinna ca' 'fush' 'foush.'"

The Queen's Needle.

Queen Victoria is in possession of a curious needle. It was made at the celebrated needle manufactory at Redditch and represents the Trajan column in miniature. Scenes from the queen's life are depicted on the needle, so finely cut that they are only discernible through a microscope.

Caution about the Use and Selection of Spectacles

"Persons having normal vision will be able to read this notice at a distance of 12 inches from the eye with ease and comfort. Also will be able to read it with each eye separately. If unable to do so your eyes are defective and should have immediate attention. When the eyes become tired from reading or writing, or if the letters grow blurred and run together, it is a sure indica- tion that the eyes are weak. The cause of this is the strain put upon the eyes by the use of defective spectacles. Continued use of such defective spectacles will result in positive injury from the constant strain upon the muscles of accommodation to supply the defect in the eye."

All patients applying at Veno's Private Rooms, in the Thompson House, until Saturday evening, will receive advice, services and treatment free until cured. The only expense to the patient will be the actual cost of the medicine necessary to effect a cure. This offer is for the benefit of those who cannot afford the usual charges, and holds good only until next Saturday.

Mrs. Wright, West End, made to speak by Veno's Medi- cines. Mrs. Wm. Ferguson, 349 Walnut street, East Liver- pool, made well by Veno's Celebrated Remedies. Many others have been cured. Come at once. Next Saturday positively the Last Day.

Veno and his life-giving remedies are the topic of con- versation everywhere. Hotel Thompson is the center of pathetic scenes. Cripples lay down their crutches and walk, the deaf are made to hear a conversation in a few hours. The malarial, nervous, dyspeptic and sick gener- ally are quickly recovering. Veno's imported remedies are doing this. The sick who have not yet received Veno's medicines are losing the opportunity of their lives. No matter what other physicians have said or done, Veno's medicines are curing the very people they have been try- ing to cure for years past.

Mrs. Wright, living in West End, East Liverpool, was paralyzed, which took away her speech. According to reports she is now better and able to speak. Mrs. William Ferguson, 349 Walnut street, East Liverpool, was made well by Veno's medicines. She suffered terribly from liver trouble and poor appetite. Many others have been cured. It is unable to visit Veno, order his medicine from Will Reed, druggist.
